CLOSING STATEMENT

Al Ekda Establishment is committed to building long-term partnerships by delivering value-driven solutions and maintaining the highest standards of professionalism and reliability.

BUSINESS OVERVIEW

Consolidated Messenger was developed to address modern business challenges, including fragmented communication, inefficiencies in project management, and cybersecurity risks. By integrating powerful features like cloud-based messaging, advanced file sharing, and AI-driven productivity tracking, our platform serves as an all-in-one solution designed to scale with your organization.

MARKET OPPORTUNITY

The global enterprise collaboration software market is projected to grow from \$52.22 billion in 2023 to \$98.6 billion by 2028, with a CAGR of 13.8%. As businesses shift toward hybrid work environments, the demand for secure, scalable, and AI-powered communication platforms like Consolidated Messenger continues to rise. Implementing this solution at Wide World Importers will provide a competitive edge in operational efficiency and employee engagement.

KEY FEATURES & BENEFITS

- Secure messaging: end-to-end encrypted chat with real-time notifications.
- AI-powered tracking: automated insights into team performance and workflow efficiency.
- Task management: integrated dashboards for tracking tasks, deadlines, and milestones.
- Cloud integration: compatible with major cloud storage platforms and CRM systems

PRICING MODEL

We offer flexible subscription-based plans to accommodate businesses of all sizes.

Our pricing includes:

STANDARD PLAN:

\$12 per user/month
(basic messaging, file sharing, and security features).

ENTERPRISE PLAN:

\$25 per user/month
(advanced analytics, integrations, and AI-powered automation).

CUSTOM CORPORATE PLAN:

Tailored pricing based on company size and specific needs.

COMPETITIVE ADVANTAGE

- Unlike other communication software, Consolidated Messenger offers:
- AI-driven analytics to measure employee engagement and productivity.
- Flexible, customizable integrations that work seamlessly across industries.
- Stronger data security features, ensuring compliance with global privacy regulations.
- Seamless user experience designed to simplify internal communication without unnecessary complexity.

TIMELINE

Q2 20XX:	Roll out Consolidated Messenger to pilot teams within Wide World Importers.
Q3 20XX:	Full integration across all departments with training and onboarding support.
Q4 20XX:	AI-powered analytics and productivity tracking implementation.
Q1 20XX:	System performance review and optimization based on user feedback.

NEXT STEPS

We invite Wide World Importers to adopt Consolidated Messenger as their enterprise communication solution. Our team is prepared to offer a seamless onboarding experience, along with ongoing support and customization options. To schedule a demo and discuss implementation, please contact

Noa Vidal at noa@consolidatedmessenger.com.
